

# PRIOR MINDSET

## Patient Testimonial 2

**Challenge:** Social Anxiety and Trauma

**Outcome:** Care coordination, parent support, risk management, and DBT treatment.

“Good evening,

I wanted to share my appreciation for the support Jerri provided today regarding a mental health referral to CAHMS for my son.

Jerri was incredibly helpful, sincere, and caring. She dedicated her time and attention to us, offering valuable information, emotional support, and guidance for both my son and me. Her involvement has already made a noticeable difference in our family dynamics. My son is pleased with the referral recommendations, and our session has fostered a positive dialogue between us that we hadn't previously experienced.

Thank you so much, Jerri. We are actively implementing some of the suggestions you provided.

Warmest regards,  
Sue”
